

TrailerWIN fix 2017-05

Valid for: TrailerWIN version 2017-03 manufactured between 20.3.2017 until 23.05.2017.

Description: Wrong crane capacity data for series HMF 610, 710, 810, 910-series cranes. This can give wrong stability calculation in CraneWIN. The model range has also been updated with new models and the model names have been updated.

Solution: Installing this update package will correct the data into TrailerWIN. Note that this package is only for program discs manufactured between above mentioned dates.

NOTE ! This package replaces the earlier packages “2017-05 HMF-710K.zip” launched 02.05.2017 and “2017-05 HMF-610-710-810-910.zip” launched 3.5.2017. If you haven’t yet installed the correction package or already installed the earlier packages, please re-install with this new package. **This latest package holds also a revised correction for model 901K4-RCS.**

Steps:

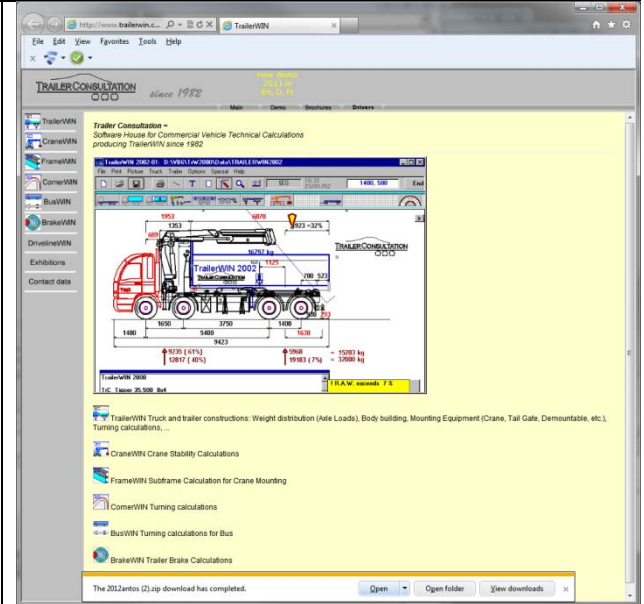

On our homepage: www.trailerwin.com select “Support” and “Fixes” or click on this link:
<https://www.trailerwin.com/userfiles/images/Fixes/2017-05%20HMF-610-710-810-910.zip>

or write the address directly in the address-field of Your web-browser.

Note: Following instructions and pictures are examples.

<p>When pop-up download appears: Choose Save</p>	
---	--

Choose Open

**When file opens in zip-program
Choose Extract**

**When asked for destination, choose the directory
where TrailerWIN is installed. Normally C:\TrailerW.
Choose C:\TrailerW**

<p>When warned about folder already exists, Choose Merge</p>	
<p>When warned about same files already exists: Check "Don't ask me again" and click Replace.</p>	
<p>Files extracted successfully</p>	

Re-start TrailerWIN and on previous calculations with HMF 610-710-810-910 series cranes, re-select the crane in TrailerWIN to update the capacity data.

If problem persists: Please contact Trailer Consultation with example of outprint and original TrailerWIN file attached.
