

Hiab CViz Activation tool

CViz application is developed by Hiab Ab and is an extension of TrailerWIN CraneWIN package. All support on CViz is handled by Hiab Ab.

The application should automatically build a link into TrailerWIN when installing if it finds TrailerWIN application installed on the computer. Anyhow there can be situations where this haven't been done in correct order or thru some automatic update, in that case you are able to activate CViz after installation.

Valid for: Users using Hiab CViz app and have TrailerWIN and CraneWIN software.

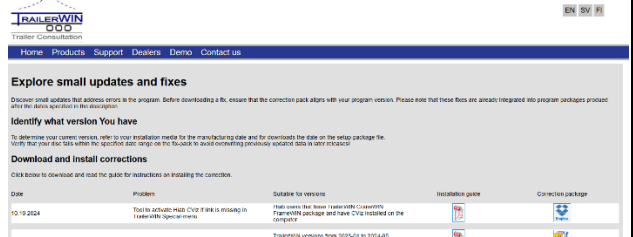

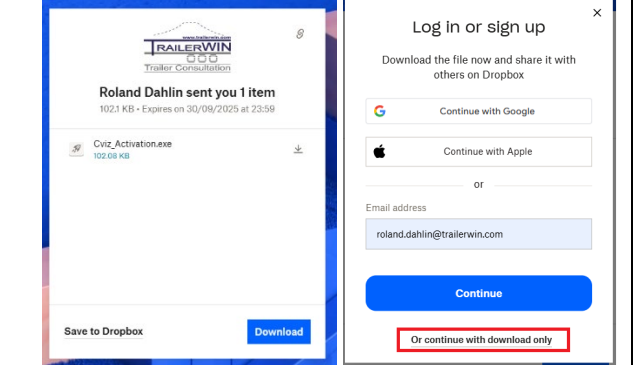

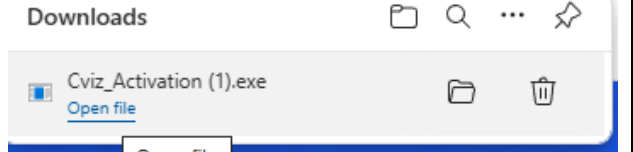

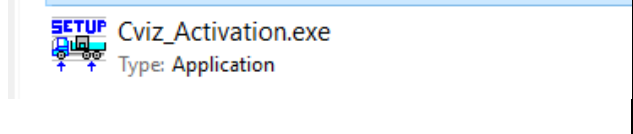

Description: CViz link is normally activated automatically when installed AFTER TrailerWIN, anyway there is this tool that can be used to activate CViz if the setup has failed to build the necessary link.

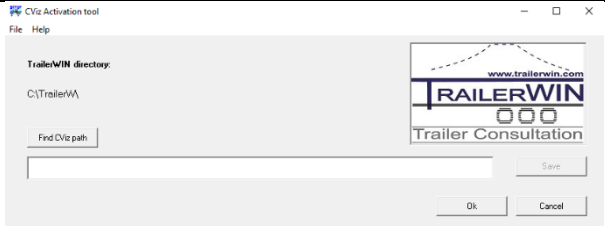

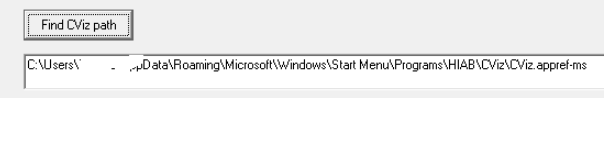

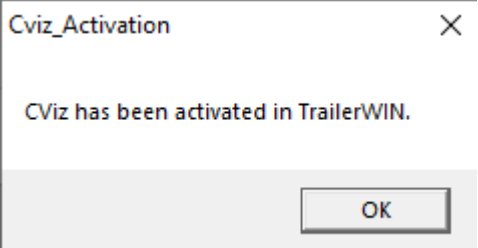

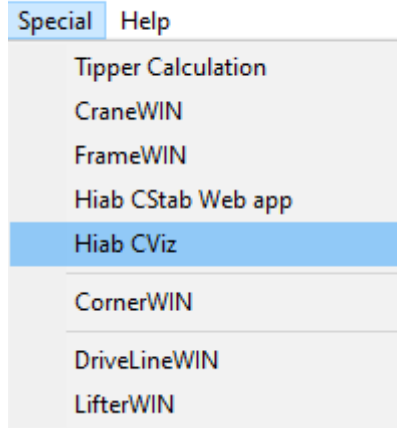

Solution: Running this CViz Activation tool will build the necessary .ini file to launch the link in TrailerWIN

Steps:

Click on the dropbox Correction package -link on Fixes-page.

Note: Following instructions and pictures are examples.

<p>Close the TrailerWIN setup</p> <p>Click on the Dropbox Icon for the patch CViz to download the activation tool</p>	
<p>Choose Download</p> <p>(Note that you can also download without log in to dropbox by selecting the last link "Or continue with download only".</p>	
<p>Open the file from link in browser</p> <p>The executable can be launched directly from browser using "Open file" link.</p>	
<p>Open the file from your Downloads-folder</p> <p>The executable will automatically be downloaded to your Downloads-folder and it can be run also from there.</p>	

<p>Running the Cviz Activation When application starts it search automatically for TrailerWIN installation.</p>	
<p>Check TrailerWIN directory Make sure the application finds the TrailerWIN directory. If the directory couldn't be found it's not possible to save the path to TrailerWIN.</p>	
<p>Find Cviz path Press on button "Find Cviz path" and you will see the full path to Cviz shortcut. If it couldn't be found, make sure you have a shortcut in start menu to Cviz.</p>	
<p>Activate Cviz Press on "Save" to create the .ini file needed to activate Cviz. If the software already finds a file with same name it warns for overwriting, here you can accept overwrite.</p>	
<p>Start Cviz from TrailerWIN Start TrailerWIN, create a truck with crane and open menu Special, there you will now find the shortcut to Hiab CViz program.</p> <p>If you can't still see Hiab CViz in TrailerWIN, make sure you have CraneWIN in your package.</p>
